For materials distribution, are there any handling limitations to consider, such as limited space, specific opening or elevator cab dimensions? <input type="checkbox"/> Yes <input type="checkbox"/> No	
If yes, please explain:	
Additional comments?	

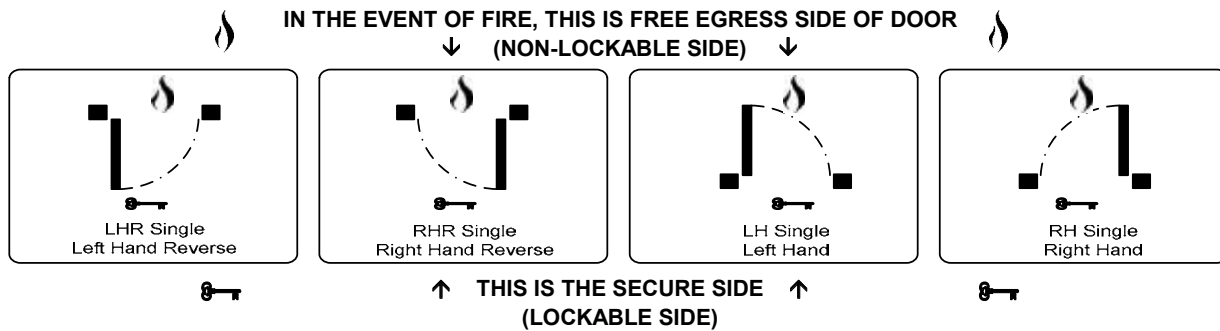

**TGP VIEWS ALL DOORS FROM THE SECURE SIDE**

Please select the appropriate door handing configuration(s) as illustrated below.

**PAIRED DOOR CONFIGURATIONS:**

**SINGLE DOOR CONFIGURATIONS:**

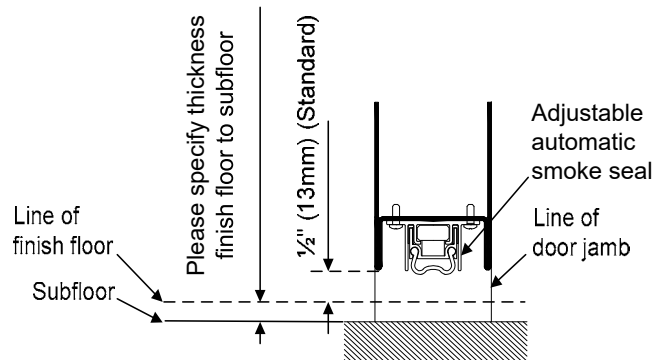

**Finish Floor Construction at Door Locations**

At door locations, please specify the thickness from finish floor to subfloor to allow for proper installation and function of the factory installed automatic smoke seal. (See illustration below).

**Material Type:**  
(check one)

Carpet  
 Tile  
 Wood  
 Other

**Thickness:** \_\_\_\_\_

**Door Leaf and Hardware by Others**

TGP doors are supplied pre-hung with all hardware pre-installed and function tested. Upon request, TGP frames can be factory prepared to accept doors by others. In which case, hardware used on TGP doors must be reviewed for proper fit and functionality with our frame system. All manufacturer's templates, model numbers, layouts, locations, and in some cases, a physical sample of each hardware item must be received by TGP prior to fabrication. Manufacturing cannot begin until items have been approved by TGP for fabrication.
